NOTES

(1) Interest is payable annually (a.), semi-annually (s.-a.) or quarterly (q.).

(2) Bonds have been issued on four markets: Canadian ("CAN"), American ("USA"), European ("EURO") and global ("WORLD").

a) Bonds issued on the Canadian market are book-based and available only through members of the Canadian Depository Securities Ltd clearing system. The writing of these book-based issues is done in multiples of CAD 1 000.

b) Bonds issued on the American market (series KL) are available through a prospectus submitted to the Securities and Exchange Commission of the United States of America. The fiscal agent is Bank of Montreal Trust Company. The writing of the book-based series series KL is done in multiples of USD 5 000.

c) Bonds issued on the European market are German private issues for which the fiscal agent is HSBC Trinkaus & Burkhardt. As these issues are private, represented by a loan convention and not a loan issuance on the market, these loans are not represented by global certificates and do not imply any compensation chamber.

d) Bonds issued on the worldwide market:

1. Serie QY is a green bond listed at the Euro MTF Market Bourse de Luxembourg and the fiscal agent is Computershare. The writing of this book-based issue is done in multiples of CAD 1 000 when exceeding CAD 5 000.

2. Serie PD is listed on Luxembourg Exchange and the fiscal agent is Chase Manhattan Bank. The writing of these book-based issues is done in multiples of USD 1 000.

3. Series QP, QS, QZ, RB, RC, RD, RE, RF and RG are listed on the Euro MTF Market Bourse de Luxembourg. The fiscal agent for series QP, QS and QZ is Deutsche Bank. For the other series, the fiscal agent is Bank of New York Mellon. The writing of these book-based issues is done in multiples of USD 1 000 when exceeding USD 5 000.

(3) An amount equal to at least 1% of the total face value of the loan is paid annually into a sinking fund.

(4) One or many contributions were made to a sinking fund.

(5) Main benchmarks.

(6) Real return bonds (series OP, PM and PS) are indexed according to the Consumer Price Index for Canada. The yield and outstanding balance are presented on pages 28 and 29.

SECTION 2: LOANS CHARACTERISTICS

2.1. GENERAL CHARACTERISTICS OF BONDS

1. SECURITIES ISSUED ON THE DOMESTIC MARKET

Unless otherwise indicated, the securities issued on the Canadian market are book-based and available only through members of the Canadian Depository Securities Ltd clearing system.

2. SECURITIES ISSUED ON FOREIGN MARKETS

Unless otherwise indicated, the following terms and conditions apply to securities issued by Québec on the US, European and Worldwide markets:

- As a general rule, these securities include provisions relating to tax status. These provisions are intended to guarantee that all payments of principal and interest will be made by Québec without deduction of any taxes, duties, or other charges, present or future, withheld at source by Québec and set by any government or other tax authority in Canada.

In the event that Québec is required to pay such additional amounts as may be necessary to ensure that the holders receive the full amount due to them, Québec may, upon prior notice, redeem the outstanding securities at their face value.

When the tax provisions of a particular security differ materially, in particular as regards the price at which Québec may redeem such security, from the general description above, such provisions are described in detail in the section relating to such security.

- The amount outstanding shown is equal to the face value, unless otherwise indicated.
 - The issue is the selling price excluding any accrued interest.
- Terms and conditions of payment: payment of principal and payment of interest or premium, if any, are subject to the tax laws or regulations applicable in the country where they are solicited. They are made, free of charge, in the currency of the loan, upon presentation and surrender of the bonds or coupons, as the case may be, at the counter of a paying agent authorized by Québec.
