View of the St. Lawrence River and the Island of Montréal

## A GATEWAY TOWARDS MARITIME INNOVATION

## THE QUÉBEC MARITIME INDUSTRY

### In numbers

**20**

Commercial ports

**400**

Businesses

**27,000**

Jobs

**9,700**

Ship movements per year

**CAD \$2.8 billion**

Of the Québec GDP

**75%**

Of transit is international

**156 million**

tons of goods

**1/3** in imports and  
**2/3** in exports

# THE UNIQUE CHARACTERISTICS OF THE QUÉBEC MARITIME INDUSTRY

- Strategic geographic location
- Connected intermodal network
- Competitive commercial corridors

- Dynamic economic driver
- Potential for major economic spinoffs
- A dynamic, competitive and thriving sector

- A robust, diversified ecosystem
- A vast network of R&D+i organizations
- A highly skilled workforce

- The St. Lawrence River, a protected, natural treasure
- Sustainable maritime industry
- Blue economy development

## THE QUÉBEC PORT INDUSTRY:

### Green and innovative

#### GREEN TECHNOLOGIES

- Clean energy
- Natural resources
- Smart, electric vehicles
- Environmental technologies
- GHG reduction and decarbonization
- Water recovery and management technologies
- Instrumentation and control systems

#### OPTIMIZATION AND LOGISTICS

- Technological integration
- Logistics optimization
- Smart, inter-modal transportation
- Improved maritime safety
- AI for tracking, tracing, and information management
- Innovations in optimization and logistics technology

#### R&D HUBS AND ORGANIZATIONS

- Port and maritime technologies
- Maritime shipping and transport
- Maritime engineering
- Underwater and hyperbaric operations
- The largest maritime training center in Canada
- A large community of researchers and scientists
- Various R&D initiatives
- Collaborative research
- Participation in international and multilateral initiatives

## ADVANTAGE ST. LAWRENCE

### QUÉBEC'S NEW MARITIME VISION

#### Priorities

1

Equip the St. Lawrence River with modern, competitive **port infrastructures.**

Port of Montréal expansion:  
Contrecoeur container terminal

2

Ensure **efficient, environmentally friendly navigation** on the St. Lawrence River.

Establishing a smart economic corridor

3

Offer riverside communities promising **sustainable development opportunities.**

Fuelling shipbuilding in Québec:  
Davie Shipyard
