DATES	PERSONNES CONSULTÉES	DÉMARCHES	
	DGSP, BSM, DGAUMIP DGSP	Communication pour obtenir les documents requis par la demande d'accès	
		<div>DAI :</div> <div><div><div>Can you please provide any emails (incoming or outgoing) involving Mr. Marc-Nicolas Kobrynsky of the MSSS (including emails to, emails from, emails where Mr. Kobrynsky is in cc or in bcc) for the period of June 5, 2022 and July 5, 2022 inclusively. Only those emails that involved the INSPQ are concerned by my demande (i.e. sent to INSPQ, received from INSPQ, or in cc to the INSPQ).</div><div>Please advise if the volume of documents requested is too significant, in which case I'll reduce the time scope of this demande.</div></div><div><div>Another document I would like to obtain is the population of each age group* that was used by the MSSS or the INSPQ to calculate incidences of hospitalizations per age group and vaccinal status. Preferably, in csv or similar formats, readable by Excel. Also, the INSPQ writes that "Les dénominateurs pour chaque groupe d'âge changent quotidiennement, au gré des variations démographiques, et la source de données est le système SI-PMI (Registre de vaccination du Québec) qui appartient au MSSS." Can I get this information from the SI-PMI that belongs to MSSS? I obviously don't need all the personal data, I just want the population for each age group that was used for various calculations.</div><div>If possible, please provide information for the following age groups: (1) 0-4 years, (2) 5 – 11 years, (3) 12 – 17 years, (4) 18 – 24 years, (5) 25 – 29 years, (6) 30 – 34 years, (7) 35 – 39 years, (8) 40 – 44 years, (9) 45 – 49 years, (10) 50 – 54 years, (11) 55 – 59 years, (12) 60 – 64 years, (13) 65 – 69 years, (14) 70 – 74 years, (15) 75 – 79 years, (16) 80 – 84 years, (17) 85 – 90 years, (18) 90 years and more</div><div>If there are documents refused, please provide the number of documents and the date of each document.</div></div><div><div>I just received the INSPQ's response to an identically formulated demande and they say that there's a document called "Décès COVID selon deux bases de données - Trajectoire santé publique (TSP) et le Registre des événements démographiques (RED)" that belongs to the MSSS. Can you please provide that document? If I'm not mistaken, it's called "2022-06-</div></div></div>
