

2020 BACK-TO-SCHOOL PLAN FOR HIGHER EDUCATION

Offering flexible teaching services to ensure pedagogical continuity for our students

Hybrid teaching allowing for human contact

- Maximum in-person student attendance:
 - New students and students experiencing difficulties will benefit from priority access to in-person classes and on-site pedagogical support
- Hybrid format: part in-person learning and part distance learning, with consistent followup and feedback

Increased support to encourage academic perseverance and success

- Access to all campus staff to better support students
- Special measures for students with specific needs

Measures targeted to ensure the safety of students and staff

- Organization of spaces and schedules to allow for the optimum use of classrooms
- Applicable physical distancing rule: 1.5 metre (16 years and older)
- Implementation of strict hygiene measures
- Application of a health protocol by educational establishments to manage their student residences
- Emergency protocol in case of a second wave of the virus with the main objectives of providing:
 - guidance for students
 - support for students to persevere and succeed
 - resources to address mental health and material needs

The higher education network will be ready to offer the best possible student experience in fall 2020.
