

Financial assistance²

Your retrofits must be carried out between two Rénoclimat energy evaluations (pre-retrofit and post-retrofit).

Only the retrofits completed on the surface area of the existing building envelope will be considered in the analysis of grant eligibility. Retrofits on building extensions will be excluded from the analysis.

Eligibility for a grant is conditional to the improvement of your home's EnerGuide rating.

Before your post-retrofit appointment, make sure that:

- › you have completed all your retrofits;
- › you have gathered all the invoices and photos;
- › you have chosen ENERGY STAR products and have kept the labels as proof.

Why do I need to provide my SIN?

Your social insurance number (SIN) is a requirement for you to receive your grant. The Québec government must produce a Relevé 27 (RL-27) "Government payments" slip for recipients of financial assistance granted under its programs. The SIN is an essential piece of information for issuing the RL-27 slip.

Are you selling?

Have your post-retrofit evaluation performed before selling your home. Change of ownership will result in the loss of access to a grant.

Evaluation notes

- 1 Other than the program end-date specified in the Normative Framework, there is no deadline for completing your renovations.
- 2 Grant amounts are subject to change. For full details on the amounts, consult the Rénoclimat Participant's Guide available at Québec.ca/Rénoclimat.
